CRINGEY PREDICTS....

FROM THE GRAVE!!!!

HOLY CRAP thanks for picking up the new zine, its totally 2020 if yer keeping score and things are already shaping up to make it the worst year yet! BUT HEY lets try to keep it ~~postive~~ positive guys, so here's some good news—there's a CULTURE CRINGE mega zine / book coming out soon! YEAH we're gonna compile all the old zines we can find as well as stories about our old releases and old shows and stuff like that. So kinda like a yearbook of sorts, or like a coffee table zine, or a great work of historical significance. Now you know what to get yer loved one for that special day. And by "special day" I mean halloween, put it in their pail.

OK lets get one thing straight, i am 100% NOT a vampire. Great I'm glad that's settled.

On the next page you'll find some of our 2020 predictions for ~~murfroosholo~~ murfreesboro and you MAY NOT take those to the bank. You can put them on the fridge with a magnet and cross them off as they occur but don't use a sharpie as it may bleed thru and stain yer fridge and if you rent that could become a problem and this is my way to say i'm not responsible for any of that mess.

A cosmic connection with someone somewhere is coming from your direction

Remember, when you are pointing at someone else there are THREE fingers pointing right back at you. OH and the secret handshake has been replaced by the secret milkshake. The ingredients are encoded in this zine and the only way to see them is to hold it up to a bathroom mirror at 3 am on the night of the full blood wolf saturn retrograde moon and let it shine through the paper. Good luck! Hopefully the milkshake machine won't be broken this time. If it is I'll immediately cut you off via distorted loudspeaker and say "UH YEAH it's out of order" and wait for your retort. Don't ask how i do that. :)

Don't be a stranger!! Enjoy the FREE valentine included in this zine!

ANSWER IN NEXT ISSUE

VHS REVIEW: Concrete Blonde, Dec 16, 1986 - September 17, 1990
1990, I.R.S. Records

The title says it all, here's a video compilation of all of the band's videos from their first three albums. It starts off with Caroline (which is their best music vid by far) and ends with Still In Hollywood. Pretty cool how it goes in reverse chronology and all that. It takes them from a veteran, road worn three piece band to their more punk/desert rock early roots. The nine videos run around 40 minutes, the video quality is great and the audio is awesome. I really have no complaints, i love the band and found this at the goodwill. Why someone would donate this, i have NO idea. Someone must've died. Sad, really. "Everybody Knows" hits even harder when it's put in that perspective.

Here's something to think about
Where would we be now without
Nasty habits, nasty habits
Makes me want to scream and shout
Life would be so dull without
Nasty habits, nasty habits
